

## IN THE SPECIFICATION

Please replace paragraph [0027] with the following amended paragraph, in which insertions are indicated by underlining, and deletions are indicated by strikethrough or double brackets.

[0027] Incidentally, though the light guide 10 shown here consists of a light guide shaped substantially as a ~~quarter~~ half of an oval having ~~an ovally curved face 1~~ and the half pieces 10A and 10B, each shaped substantially as a quarter of an oval, and having ~~[[an]]~~ the ovally curved faces 1, 2 being stuck together, it may alternatively be ~~unitarily~~ integrally formed as a unitary member. As depicted in the drawings, the half pieces 10A, 10B of the present embodiment are not equal in size. Accordingly, the half pieces are described as each being substantially a quarter of an oval. Further, though the curved faces are oval arcs here, they may ~~[[as well]]~~, alternatively, be paraboloidal.
